

Capital Project WM-11 Croton Water Treatment Plant, Borough of The Bronx, New York

CSM

CLIENT:

New York City
Department of
Environmental
Protection

COST OF CONSTRUCTION:

\$1 Billion

COMPLETION DATE:

2012

As a sub consultant to URS/Malcolm Pirnie JV, CSM is currently providing Construction Inspection and Site Safety Services, Architectural Coordination, and Technical Support for the Croton Water Treatment Plant in the Bronx, NY.

The scope of work for this project includes:

- Construction inspection for conformance of work with the plans and specifications, and any deviations to the Resident Engineer
- Preparation and maintenance of daily inspection reports and all other information relative to the execution of the work
- Maintenance of payment records, Contractor's time and material sheets, and review of Contractor's partial payment requests.
- Maintain as-built drawings of the work
- Perform all other inspection and field duties as required by the Resident Engineer
- Audit Engineering services
