

North River Wastewater Treatment Plant Pollution Control Plant Upgrade Contract NR-33 & NR -35 CM Manhattan, New York

CSM

As a sub-consultant to Malcolm Pirnie, Inc., CSM is providing professional engineering inspection services related to the construction of the North River Water Pollution Control Plant located on the Hudson River west of the West Side Highway from 137th Street to 145th Street. A multi-phase "contain and treat" Solution was created that included fiberglass covers over the primary clarifiers.

CLIENT:

New York City
Department of
Environmental
Protection

COST OF CONSTRUCTION:

\$ 4,000,000.00

COMPLETION DATE:

2011

With odor -laden air drawn off for treatment by chemical scrubbers and activated carbon units. Other systems capture odorous gas leaks and protect Worker safety, whole a comprehensive community outreach program improved the city's public relations.
